The chart shows the number of households with an occupancy rating (rooms) of +2 or more, as a percentage of all households (Census 2011). The ages of the household members and their relationships to each other area is used to derive the number of rooms/bedrooms they require, based on a standard formula. The number of rooms/bedrooms required is subtracted from the number of rooms/bedrooms in the household's accommodation to obtain the occupancy rating. An occupancy rating of -1 implies that a household has one fewer rooms/bedrooms than required, whereas +1 implies that they have one more room/bedroom than the standard requirement.
